

A VICTORY FOR FINANCIAL PRUDENCE

We'll slash over 60% of the costs of international calls dialled from your mobile

A globe showing the continents of North and South America is positioned in the lower-left quadrant. The globe is semi-transparent, revealing a grid of latitude and longitude lines. Overlaid on the globe and the background are several glowing, white, ethereal lines that form a complex, looping pattern, resembling a stylized signal or network diagram. The background is a gradient of light blue to white at the top.

**You're paying twice what you should
for calls to mobiles from your office
We'll halve your rates - fast!**

Welcome to Vaux Telecommunications
Smart mobile phone solutions

LEADING THE REVOLUTION IN MOBILE CALL COSTS

Use Vaux technology, know-how and global networks, to access two fast routes to big savings on your phone bill:

- ☎ Make cut price international calls from mobiles, in the UK or abroad, by connecting to a local number. Save a fortune.
- ☎ Call mobiles from your office landlines, for half price. We automatically and invisibly intercept and re-route the calls, yielding massive savings.

We do this with **no disruption** to your operation, while delivering the highest standard of calls and providing a round-the-clock support service.

Gain a competitive edge, with money to plough back into your operation, absolutely **no capital costs**, no changes of telephone service provider and reliable, future-proofed and secure technology backed by **24/7 service** and support.

Welcome to Vaux's smart mobile-phone solutions from the industry leaders.

We may change the way you work.

HOW VAUX WILL BENEFIT YOUR BUSINESS

FROM YOUR MOBILE PHONE

Save up to 95% on international calls from your mobile-phone

Make immediate, huge savings – money you can use to grow your business or drop straight to the bottom line. It's flexible and easy to use too:

- ✓ No hidden connection fees
- ✓ No special set-up costs
- ✓ No hardware/software changes
- ✓ Global operation – use it in the UK or anywhere in the world
- ✓ Simple electronic registration process
- ✓ No contract, no sign-up charges, no monthly fees

FROM YOUR OFFICE

Halve the cost of calling a UK mobile-phone from your office

Dump those inflated rates for dialling a mobile-phone from your office landline and switch to a service that'll halve your costs and leave you with extra cash to invest.

- ✓ Transparent to the user
- ✓ Extra capacity by routing calls away from landlines.
- ✓ Detailed user reports
- ✓ Continuous search for cheapest tariffs
- ✓ Failsafe technology and back-up if your landlines fail
- ✓ Quick and easy installation

Telecommunications

YOUR INTERNATIONAL MOBILE PARTNER

DIAL THE WORLD FROM YOUR MOBILE FOR 1p

Mobile-phone service providers do very nicely, thank you, out of their international calling business. Typically, calling from the UK, you pay between 5p (to USA) and 25p (elsewhere), sometimes up to £1.65 a minute. Using a discount code won't save you much either.

When you use Vaux from the UK, you call us at no cost (covered in your monthly minutes), then dial out to the world from just 1p a minute.

When abroad, using Vaux to call from a mobile-phone to other international destinations, will reduce your phone bill by 95%. For Example: to call USA from Belgium, Vaux will charge you 26p per minute, whereas for the same call with a mobile service provider you could cough up £1.65 a minute!

It costs nothing to sign up for our service, there are no monthly fees beyond the cost of your calls and there's no contract or minimum usage requirement. Using Vaux just makes sound financial sense.

HOW TO SAVE A FORTUNE*

A company averaging 500 minutes per working day for international calls dialled from a UK mobile to Europe, at 25p per minute, currently faces a yearly bill of around **£35,000**

Same calls - using the Vaux solution to an Overseas mobile **£20,000**

Same calls - using Vaux to call an overseas landline **£1,500**

A company averaging just 50 minutes per working day for international calls made from Europe, using a UK mobile, to USA at £1.65 per minute currently faces a yearly bill of around **£22,000**

Same service via Vaux **£3,700**

VAUX GATEWAY SOLUTION

MONEY IN THE BANK

Mobile-phones are a big part of doing business on the move. If you call one from a landline in your office, you'll pay around 12p a minute for the privilege. Over a fairly short period, it's easy for even a small or medium-size company to consume thousands of minutes or, put another way, to burn up thousands of 12p's.

It's a rip off! With the Vaux Gateway – a small piece of hardware attached to your main switchboard – the cost of each call is slashed by two thirds, to about 4p.

Even after taking account of our small monthly fee, which covers specification, installation, operation, maintenance and management – with absolutely no capital cost, that's NO CAPITAL COST – your fixed-to-mobile bills will still be more than halved.

HOW TO SAVE £16,000 A YEAR*

A company averaging just 1,000 minutes per working day for fixed-to-mobile calls at 12p per minute currently faces a yearly bill of around	£30,000
Airtime costs using the Vaux solution are slashed to just	£10,000
Vaux's monthly cost for all equipment, installation and support services at just £333 in this example produces an annual cost of only	£ 4,000
That is a total annual saving (with no capital costs, remember) of	£16,000

*Figures for illustrative purposes only. Actual costs and savings vary.

MORE WAYS TO START SAVING NOW

Vaux was founded in 2003 but is part of a long-established, major international telecommunications group.

This means that in addition to our revolutionary international mobile calls and Gateway solutions, we offer a number of other telecommunications services at attractive prices and with the same degree of commitment.

Our services include:

- International telephone calling starting at a fraction of retail prices
- VOIP (Voice over Internet Protocol) business line trunking for free calls between your business units.
- Hosted PBX – Replace the need for expensive telephone systems
- Office PBX – top of the range telephone systems at a fraction of retail price.

OUR PLEDGE

Our pledge is to continually provide our esteemed clientele with up-to-date services, equipment and maintenance to meet today's, and tomorrow's, needs and challenges.

We constantly invest in R&D, training and development of our qualified team of professionals to maintain our competitive edge in the industry.

Our dynamic team is dedicated to ensuring your complete satisfaction and comfort with the products and services we provide.

We are committed to finding solutions that address your needs and concerns.

And if you have any questions whatsoever about our products or service, just ask.

Our pledge is to serve you with efficiency, integrity and courtesy.
